## Professional Summary

Curious and driven young developer from Tashkent, Uzbekistan, passionate about creating software that solves real problems. Experienced in full-stack development and AI integration, I enjoy turning ideas into working prototypes and collaborating closely with teams to bring projects to life. Organized, proactive, and eager to learn, I thrive in environments where creativity and innovation drive results.

## Experience

### Startup Ambassador

Jan 2026 – Present

### Yoshlar Ventures

Tashkent, Uzbekistan

- Represented Yoshlar Ventures in startup events and community initiatives
- Engaged with early-stage founders, providing feedback on ideas, pitches, and validation
- Supported outreach activities to attract young entrepreneurs into the ecosystem
- Assisted in organizing networking sessions, workshops, and startup-related events
- Conducted basic market and competitor research to support startup development
- Promoted initiatives through social media and online communities to increase engagement

### CTO & Co-Founder | Full-Stack Developer

Nov 2025 – Present

### Sadoo

Tashkent, Uzbekistan

- Co-built an AI voice startup from a hackathon idea to MVP with the CEO

- Owned backend architecture, database design, and authentication
- Developed Telegram bot and integrated AI models for speech processing
- Collaborated on frontend features and overall product development
- Prepared the platform for MVP launch through internal testing and iteration

## Frontend Developer

Sep 2024 – Dec 2024

### KitobOI

Tashkent, Uzbekistan

- Designed and implemented a full-featured platform for online book sales and job vacancy listings using React, Tailwind CSS, and TypeScript
- Optimized UI components for scalability and performance, improving user engagement and mobile responsiveness
